(i) General Description

The functional review of the National Commission of Financial Market of the Republic of Moldova (NCFM), have stressed the need for a systematic approach towards professional development of the NCFM staff continuous strengthening of their work. Among the recommendations was setting up of courses for NCFM staff to raise and increase their level of English proficiency.

The realisation of one of the main objectives of NCFM – implementation of the best international practice in its activity – requires the high level of English proficiency of its staff. The existent NCFM staff has insufficient capacity to formulate/elaborate policies and to play a value-added role in verifying legislation in general, using alternative sources of information/laws, which are usually available in English.

Furthermore, foreign assistance, especially training courses, consultancy offered by foreign experts (usually in English), shall also be taken full advantage of and in this regard, the poor knowledge of English that NCFM staff have is an impediment.

To enhance English language proficiency of a group of NCFM staff (approx. 60 persons) that participates to the elaboration of policies and adjustment of the national legislation to the European standards, up to a basic-to-medium/advanced levels through organization of specialized training of up to 4500 hours, within 6 training levels for each group of up to 12 persons, linked to the needs/requirements of their work. The training shall be carried using interactive communication, using the procedures of adult learning.

The training is expected to be delivered to a number of 60 civil servants, divided in groups of not more than 12 persons. Depending on the level of initial knowledge of English (elementary level, beginner, and pre-intermediary level), the training is to be offered up to the intermediate (3 level) or advanced level. The classes would be held 2 times a week (6 academic hours a week, most probable after working hours). Trainings are to be organized at the NCFM. Totally there are 3 (three) class rooms to be used in providing of the English courses. The necessary equipment and documents/materials are to be ensured by the supplier in quantities indicated above. In the training will be emphasized on knowledge of English with specialization in financial field.

(ii) Specific details and technical standards:

The company that will provide these services, to successfully implement the tasks under the tender, shall undertake the following activities:

1. Formation of groups of participants in training courses (including taking into account the level of proficiency in English language according to final evaluation performed by NCFM specialists).
2. Elaborate the training plan and program (to be approved by the NCFM vice chairman).
3. Conducting English language trainings – in 6 phases approx. 100 hours each.
4. Completion of the training.

- Comprehend spoken English;
- Maintain fluent verbal conversations;
- Communicate through e-mail on legal or other issues;

- Take full benefit of courses and other capacity building events organized under the technical assistance projects, involving both local and international experts.

The full information regarding the knowledge of English language of each participant of these courses will be provided to the winning supplier.

The approach under the all levels should include the development of all skills (listening, speaking, reading, and writing) and the study of all aspects (vocabulary, grammar, pronunciation).
